1.0 The Firm

Mazingira Limited is a firm of environmental and resource management experts registered and incorporated in Kenya to carry out consultancy work on environmental engineering, environmental planning, management and development issues. It is registered by the National Environment Management Authority (NEMA) as a firm of experts (Reg. No. 1957) and is legally allowed to carry out Environmental Impact Assessment (EIA) and audit (EA) studies. It draws its strength from its team of highly trained and experienced personnel of various academic persuasions and professional backgrounds. The firm has strong links with academic community in public universities, research institutions and has close working relationship with professionals of diverse backgrounds among them architects, engineers, surveyors and sociologists. Mazingira Limited has the following characteristics:

- ➤ It is a Kenyan initiative run by Kenyans but open to global trends of thought and action on environmentally sustainable development.
- ➤ It maintains a long-term vision of the environment and natural resources management in Kenya within the framework of efforts to promote an environmentally sustainable development.
- Backed by its members, Mazingira Limited occupies a niche which enables it to provide practical services to local communities, industry, private developers, the public sector, professional bodies, academia, training and research institutions and any other local and international groups/institutions/individuals who may have interest in working towards the cause of sustainable development.
- Mazingira Limited programmes represent an interface between environmental policy development and research.

2.0 Mandate

The mandate of Mazingira Limited is focused on managing the environment in a holistic and sustainable way through the involvement of all the relevant stakeholders as the situation may demand as well as informing the public on issues that affect their well-being.

3.0 Mission and Vision

The long-term goal of the organization is to facilitate and ensure that the environmental situation in Kenya is managed within the framework of Sustainable Development. The mission of the firm is to help individuals both within and outside Kenya achieve environmentally sustainable development through partnering with like-minded individuals, organizations and institutions to undertake various projects and programmes meant to enhance environmental sustainability.

The vision of the firm lies in building and strengthening of expertise of individuals and institutions within Africa at local, national and sub regional levels in order to fulfill its mission.

4.0 Mazingira Limited Clients

Mazingira Limited's programme activities are demand driven and benefit national governments, institutions- both public and private-, sub regional organizations, private individuals, industries, multilateral financial institutions and bilateral donors involved in promoting sustainable development agenda.

5.0 Objectives

The objectives for which the firm is established include the following.

- (i) To enhance the grass root community's capacity to respond to the emerging environmental problems and inculcate into them positive attitudes towards their surrounding and in the process assist them in improving their living standards.
- (ii) To manage the environment through the use of modern environmental management tools and consultancy services.
- (iii) To organize or participate in seminars and workshops intended to educate the public, impart knowledge or develop skills for the achievement mainly of environmental conservation and sustainable development.
- (iv) To operate mainly as a research-based firm with a firm base in areas where environmental and social development issues are relevant.
- (v) To engage in research into all problems relating to development investment, environment, agriculture, economics, resource monitoring, farming; prepare and distribute information relating to any business, industry or development and promote or propose such methods, procedures or measures as may be considered desirable or beneficial for all or any of the firm's objectives.
- (vi) To join with any person, firm or company, bodies, organizations and societies in doing any of the things aforesaid and to work, manage and control the same or join with others in so doing.

6.0 Mazingira Limited Services at a Glance

6.1 Environment

- Strategic Environmental Assessment (SEA)
- Environmental Impact Assessment (EIA).
- Strategic Impact Assessment (SIA).
- Environmental Audit (EA)
- Environmental Management.
- Solid Waste Management.
- Industrial Effluent and Waste Management.
- Environmental Planning.
- Integrated Watershed Management

6.2 Water Resources and Waste Water Management

- Design of Urban and Rural Water Supply Projects.
- Water resources and development.
- Waste water management.
- Participatory Community Water and Sanitation Projects.
- Water conservation.
- Industrial effluent treatment.
- Drainage.
- Irrigation.

6.3 Sanitation

- Urban and rural sanitation management.
- Solid waste management.
- Low cost sanitation.

6.4 Studies

- Pre- feasibility studies.
- Feasibility studies.
- Financial and economic studies.
- Project rehabilitation and augmentation.
- Baseline studies.
- Needs assessments.
- Project Technical Audits.

6.5 Planning and Design

- Master plans.
- Cost planning.
- Preliminary designs.
- Evaluation.
- Final Design, Specifications, and Tendering.

6.6 Training

- Environmental Education and Awareness
- Good governance.
- Formation of CBO's
- Registration of WUAS.
- Gender issues.
- Hygiene and HIV/AIDS awareness.
- Water Sector Players.
- Water Act 2002 and the Water Sector Reforms.

6.7 Project Implementation

- Survey and design.
- Preparation of Tender Documents.

- Procurement of project contractors.
- Supervision of construction.
- Post construction project management.
- Defects Liability Period Support.
- Quality control.
- Project handling over.

6.8 Development

- Monitoring and evaluation.
- Preparation of operation manuals.
- Rapid project appraisals.
- Infrastructural Development.

6.9 Health and Safety

- Health and Safety Training
- Health and Safety Audits
- Fire Safety Audits
- Risk Assessment Audits
- Business Continuity Assessment Audits

7.0 Sample of Strategic Environmental Audit (SEA), Environmental Impact Assessments (EIA) and Environmental Audits (EA) done

Year	Project	Client
2021	Environmental Audits for Safaricom Base Transceiver Stations, mobile switching centres and retail shops	Safaricom PLC
2021	Environmental Impact Assessment for the proposed Safaricom Limuru Data Centre in Limuru, Kiambu County	Safaricom PLC
2021	EMF Training and awareness training in Mombasa County	Safaricom PLC
2021	Environmental Impact Assessment for the proposed Safaricom 5G Network rollout BTS sites in different parts of the country	Safaricom PLC
2021	Environmental Audit in Block 13T and 10BA in Turkana County (in collaboration with Earthview Geoconsultants Ltd)	Africa Oil
2021	Environmental Impact Assessment for the proposed disposal of bentonite waste in Kargi area of Marsabit County (in collaboration with Earthview Geoconsultants Ltd)	National Oil Corporation of Kenya
2020	Environmental Audits for Safaricom Base Transceiver Stations, mobile switching centres and retail shops	Safaricom PLC
2020	Environmental Audits for Sinohydro burrow	SinoHydro Corporation
